Attn: David Minaz
Re: Public School 17 Roof

Dear Mr. Muniz,

We propose to provide the services summarized in your email of November 7, 2017 below, to implement a project to replace the roof on the Center Vestibule at Saunders High School.

Our fee to provide these services, in accordance with the same terms and conditions recently established in the contract we have with YPS related to a roof repair project at family School 32, would be \$7,900

This fee can be apportioned as follows:

| | |
|-------------------------------------|----------|
| Field Inspection - Schematic Design | \$1,200 |
| Plans & Specifications | \$ 3,100 |
| Bid & Award Phase | \$ 1,000 |
| Construction Phase | \$ 2,600 |

Please realize the materials that we expect will be used to perform the roof work are temperature sensitive - i.e., they cannot be properly applied in freezing or wet weather. Based on the milestone dates in your email, this means the roofing work won't occur until next Spring.

Thank you for inviting us to submit this proposal. Please let us know what YPS decides to do.
