Cindy,

The FY20 budget for Fuel Oil was set at \$3,433,350 so you can set the resolution as high as that amount. I got to that number by assuming a usage of 1,461,000 gallons at an average price of \$2.35/gallon.

Let me know if you need anything else.

What amount can I put on the resolution for oil for the 2019-2020 school year?
