

**School 23 – Sensory Paths Plan**

**1<sup>st</sup> Floor (10x35 ft., including the corner of the hall)**

Start: Corner by bathroom  
End: before first classroom

Suggestion: Blast Off <https://thesensorypath.com/sensory-path-shop?olsPage=products%2Fblast-off-sensory-path-package>

It says, "Reach for the Stars." It addresses visual-motor, balance, strength, body awareness. Includes jumping, pushing, and tandem walking.

**2<sup>nd</sup> Floor (10x30 ft.)**

Start: After classroom next to library    End: Before next class door    Suggestions:

1. Push Wall <https://thesensorypath.com/sensory-path-shop?olsPage=products%2Fpush-wall>
2. Alpha Dots <https://thesensorypath.com/sensory-path-shop?olsPage=products%2Falpha-dots>
3. Number Daisy <https://thesensorypath.com/sensory-path-shop?olsPage=products%2Foriginal-sensory-path-daisy-element>
4. Infinity Snake <https://thesensorypath.com/sensory-path-shop?olsPage=products%2Finfinity-snake>

**3<sup>rd</sup> Floor (10x15 and 10x20 ft.)**

Location: Main corridor

Suggestion: Two push walls (This will stay along the wall and take up less floor space.)

**Other Ideas:** You could reverse the first and second floors. The Space theme is a little more grown up, but there's more room on the first floor to fit it because we can utilize the corner walls.  
If the money is too much, take away the Infinity Snake. We can work with the other elements to include balance.

**Items Cost**

Blast Off	\$1500
Alpha Dots	\$375
Daisy	\$275
Infinity Snake	\$425
Push Wall (\$275x3)	\$825
<b>Total</b>	<b>\$3400 (tax, shipping?)</b>
