Dr. Edwin M. Quezada
Superintendent of Schools

Dr. Andrea Coddett
Deputy Superintendent of Schools

John P. Carr, P.E.
Executive Director
School Facilities Management

On August 15, 2019 during an inspection of the Breezeway roofing it was discovered that approximately 100 square feet of the school's flat built up roof had collapsed onto the breezeway ceiling below. The materials were caught on the black iron rails above the ACT ceiling.

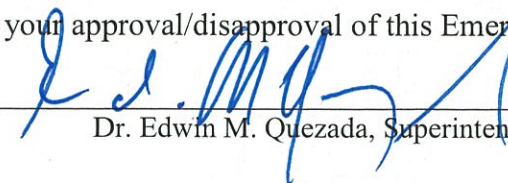

Milcon Construction responded to a District call to evaluate and remove sections of roofing.

Permanent roof repairs will be scheduled once the roofing manufacturer and roofing consultant have determined warranty coverage and roof repair scope.

The level of difficulty with the specified repairs and the full schedule of work precludes this work being done with in-house forces. Milcon Construction Corporation has a history of performing acceptable roof repairs at YPS. The cost of the repairs is not expected to exceed \$20,000.00 and is anticipated to be completed prior to school opening 2019.
