Dear Perspective Buyer,

Thank you for your interest in The Sensory Path Inc. We are the original developer of The Sensory Path concept and have a patent pending for our product design. We currently are the sole provider of a The Sensory Path™. All of our paths are designs using a process that we developed to reduce sensory seeking behaviors and increase cognition. As the original designer of a The Sensory Path™ we understand the needs of children. We promise to offer the best pricing available for a research- based quality path.

Sincerely,

Holly Clay ~The Sensory Path Inc.
