Feminine Napkins / Tampons

Gards® Feminine Napkins

Gards® is a leading name in vended feminine protection. The Gards® napkins (147A or 248) offer a multi-channel design for better absorbency. The fluid is channeled to allow for dryer areas on the pad and away from the sides to avoid leakage. The most popular size box, a #4 box, contains a folded pad, while the #8 box contains a flat pad. Feminine hygiene vendors dispense one of these two size boxes.

Maxithins® Feminine Napkins

Maxithins® feminine napkins (MT-4 or MT-8) offer a multi-channel design for better absorbency. The fluid is channeled to allow for dryer areas on the pad and away from the sides to avoid leakage. Available in a #4 box, containing a folded pad or a #8 box containing a flat pad.

Also available in this product line is the Maxithins® Ultra Thin with side guards (MT-200). This napkin has an ultra thin core for discreet protection. It also has a dry guard cover sheet for superior dryness and comfort. Available in a #4 box.

To complete the Maxithins® vended offering we stock panty shields (MT-555 or 555R) packed in dispenser boxes that fit feminine tri-vending machines that dispense feminine napkins, tampons and shields.

Tampax® Tampon Regular Absorbency

Hospesco is proud to be a select distributor of Tampax® tampons through vending machines for over 50 years. Individually wrapped and in a vending tube, Tampax® is the name more women trust.

Feminine Hygiene – Non-Vended & Bulk
