## Delivery Expectations for School Specialty Customers

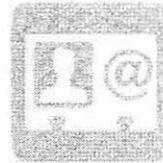

School Specialty works in partnership with freight carriers and vendors to ensure you have a smooth and damage-free delivery. But in the rare event of mishandling or discrepancy regarding your delivery, you will want to keep a detailed account of your inspection. In this case, we highly suggest you have the following items available at time of delivery:

Cell Phone

This Paper

Your Reps Info

Below is a recommended inspection guide that you should use when your delivery arrives. Make sure you “received” what you ordered, including the level of delivery service you requested. When in doubt, give your School Specialty representative a call.

When the delivery truck arrives, you should first make sure the items/pallets delivered match the number of items/pallets on your **delivery receipt**. If the number of items/pallets does not match, note on the delivery receipt that you will be asked to sign\*\*.

**Shortages:** The delivery receipt lists 2 pallets, and the driver delivered only 1 pallet → Sample Notation: “Received only 1 pallet when 2 pallets should have been delivered”

**Overages:** The delivery receipt lists 2 pallets, and the driver delivered 3 pallets → Sample Notation: “Received 3 pallets when 2 pallets should have been delivered”

School Specialty provides trailer unloading services for ALL shipments. Either the driver will unload the freight using a pallet jack and lift gate, or an installer will be on site to unload the freight. If the driver demands school personnel unload the truck, please call School Specialty Transportation immediately at 844-639-3073 to resolve the issue.

As the driver is unloading your freight from the truck, take notice of the condition of the freight before the stretch wrap is removed. If there is any noticeable damage to the freight, please record this on the delivery receipt and take pictures to detail the issue. Even if the damage seems minor or the stretch wrap is partially torn, make sure to note that on the delivery receipt\*\*.

Sample Notation: “Received 2 pallets, five cartons crushed and punctured.”

You are not required to remove the stretch wrap to inspect the shipment or open any boxes when the driver is on site. But if the freight looks beat up, crushed, punctured, or not in good condition, you may want to remove the stretch wrap to verify the condition of the freight. Just remember to take pictures and document your inspection results\*.

Within 48 hours of receiving the shipment, you will want to inspect all the items you received. A packing list will be attached to the pallet or in one of the boxes shipped to you. Verify the contents received against the packing list. Record any errors on the packing list. Report any damages or shortages to School Specialty within 3 days of delivery, weekends included. Returns or replacements for damaged items cannot be accepted after 3 days. Lastly, provide the packing slip to your administrator, payables associate, or accounting department to ensure proper and timely payment of the material received.

*\*If the delivery receipt is not noted, School Specialty and/or the freight carrier cannot be liable for damaged or missing freight.*

*+Please take pictures of the signed delivery receipt before giving it to the freight carrier representative or driver.*

*Disclaimer: For the absence of any doubt, if there is a formal agreement between you and School Specialty, any applicable delivery terms in the formal agreement will control over the terms of this Delivery Expectations for School Specialty Customers document.*

All products are priced FOB to all member agencies within the continental US (free freight). Shipments to Alaska, Hawaii and Territories and Outlying areas are prepaid to the port of exportation. Additional freight from US port to final destination will be applied at actual charges on a separate line.

Delivered pricing includes dock/tailgate/liftgate delivery during normal business hours (8:00 am - 4:00 pm, Monday-Friday). Free inside delivery and liftgate service are not applicable to full truckloads.

Installation costs, if necessary, will be quoted on a job-by-job basis with a minimum charge of \$30.00 per hour, not to exceed \$65.00 per hour including orders that may have prevailing wage requirements. In circumstances where there are installation delays outside of standard installation timelines, there can be additional billing of warehousing/storage fees at current market rate.

Discounts will remain firm for the term of a contract. In addition, School Specialty reserves the right to provide deeper discounts than those listed above based on the size and scope of the opportunity.

Questions? Contact your School Specialty representative.
