Furniture Return Policy

All furniture products purchased from Tequipment Inc. are not returnable after delivery.

Payment Terms & Conditions

This Estimate is for budget guidance, and is not final pricing for your completed project. To provide a final quote, Teq must perform a site survey to ensure the products and services in the estimate meet your needs, and are appropriate for the space(s) you have indicated. Please contact your Account Executive to schedule a site survey. The survey will be performed by a certified Teq employee and will identify any issues that may need to be addressed prior to the installation. Once the site survey is complete, you will receive a Quote, based on the survey results, that represents our final pricing proposal. Quotes are valid for 90 days from issuance. This process ensures that we provide the most accurate pricing possible for your completed project. If you have any questions, your Account Executive or Senior Account Executive would be happy to help.

Customer agrees that Tequipment will perform work under this purchase order only if there are no asbestos containing materials (ACMs) or presumed asbestos containing materials (PACMs) at the anticipated work site. Customer agrees to provide Tequipment the Asbestos Management Plan in order to identify the potential location of ACMs or PACMs. In the event there are either ACMs or PACMs at the work site, Customer agrees to hire a third-party to perform the requisite asbestos abatement work so that Tequipment can install the purchased products. By entering into this purchase order for work Tequipment will perform on Customer's premises, Customer confirms that either: (i) there are no known ACMs or PACMs; or, (ii) Customer has provided information to identify the location of all ACMs or PACMs in the anticipated work site. Customer agrees to indemnify and hold Tequipment harmless for any and all damages it may sustain as a result of Customer not meeting its obligations under this material term of the purchase order.
