Cindy,

You can put the resolution in for up to the amount budgeted, which is \$3,520,000. I think last year, Danette put it in for something below the budgeted amount but I'm not sure why. I think we had to increase the Purchase Order late in the year.

The budgeted amount (rounded) was based on an estimate of 1,400,000 gallons at a cost of \$2.5142 per gallon.

Let me know if you need anything else.

Subject: Oil

I will be handling the oil this year and I need to know how much I need to put a resolution in for.

Thanks
Cindy
