Re: Lead in Water Services Contract Extension

Mr. Carr;

As per your request, Eisenbach & Ruhnke Engineering, P.C. is pleased to provide an update to the proposal for services related to remediating the lead in water issues in the Yonkers Public Schools.

As of April 3, 2017 the original contract was for \$50,000.00. Then on July 25, 2018 an additional \$61,060.00 was given as only 22 out of the 39 Actionable schools were completed. We are now requesting an additional \$60,000.00 as the multiple retesting is complete. We are also preparing a report verifying the buildings meet code and documenting the work done. If there are any questions, let me know.

Sincerely,

*# agreed to.
50,000
