February – May	Online coaching consultations on an as-needed basis	Off-site

Rationale for PD Approach

Based on observations conducted in Gorton and Lincoln High Schools in Spring 2017 and knowledge of the participating teachers, the most pressing need is applying what the teachers know into their day-to-day teaching. The topics in the table above address the requests from Dr. Angela Arias. Topic 3 connects the three content topics with actual application. The classroom coaching component will support and scaffold teachers as they implement new strategies for teaching ELLs in the content areas. Principal Sherman strongly suggested the coaching piece last year, and we are confident teachers will benefit from it. In addition, we will provide online coaching consultations on an as-needed basis in Spring 2018.

Budget

The all-inclusive fee for the year of professional development and coaching is \$25,000 (\$6250 per on-site day of PD and/or coaching). This fee includes an online needs assessment, consultation with the Gear Up team, consultation with the two principals, debriefs after each on-site visit, and online coaching on an as-needed basis.
